

ABDULMUIZ ADEMOLA ABDULKABIR

Software Engineer · Fluid Developer

Lagos, Nigeria | abdulmuizademola9@gmail.com | github.com/EcstaceeLOR | linkedin.com/in/abdulmuiz-abdulkabir-9778393b4

PROFILE

Computer Science student and software engineer interested in frontend development, artificial intelligence, software engineering, and building practical products. Experience spans full-stack applications, agent systems, smart-contract development, hackathons, leadership, and project coordination.

EXPERIENCE

Web3Bridge — Intern

May 2026 – Oct 2026

Worked across modern software and blockchain development, including frontend applications, smart contracts, deployment workflows, and technical projects.

K.B Ariwoola Productions — Data & Inventory Management Assistant

Oct 2021 – Dec 2024

Digitized inventory records, managed stock-tracking spreadsheets, monitored product availability, and kept operational records up to date.

SELECTED PROJECTS

VetoLayer — Reasoning and approval layer for high-impact AI-agent actions with deterministic policy, contextual reasoning, human review, and auditable decision receipts.

Synesis — Safety and coordination layer for agent-controlled onchain value, combining independent agent analysis, deterministic policy, bounded execution, and proof.

ProofKey — Cross-chain pay-per-use access system for real-world machines using verifiable source-chain payments and non-transferable access credentials.

EventRail — Non-custodial integration and trading layer for DreamDEX Event Contracts on Somnia, with portfolio, settlement, API, and SDK tooling.

Canalis — Governed payment orchestration for autonomous agents on Solana with bounded task budgets, policy controls, settlement, and recovery.

LEADERSHIP

Chief Press Secretary — FUTMinna Senate Presidential Cabinet 2025–2026

General Secretary — NAICTS, FUTMinna Chapter 2024–2025

Assistant General Secretary — NAICTS, FUTMinna Chapter 2023–2024

Team Lead — The Heirs Insurance Hackathon 2026

ACHIEVEMENTS

Executive of the Year — NAICTS Glamour Awards, 2025

3rd Place — EAG × HSK Hackathon, Stablecoin Track (ReserveRail), Aug 2026

1st Place — Zcash Developers Sprint (Zeccept), Aug 2026

EDUCATION

Federal University of Technology, Minna — B.Tech Computer Science, 2022–2027 (Expected)

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Solidity, HTML, CSS • **Frontend:** React, Next.js, React Native • **Backend:** Node.js, Fastify, REST APIs • **Data:** Supabase, PostgreSQL • **Tools:** Git, GitHub, GitHub Actions, Vercel, Docker, CI/CD
